Achtung!

Kinder können sich in Schlaufen von Schnüren zur Bedienung der Jalousie verfangen und erwürgen. Es besteht die Gefahr, dass sie sich die Bedienelemente um den Hals wickeln.

Um dies zu verhindern, halten sie Schnüre außer Reichweite von Kleinkindern. Kinderbetten und Möbel dürfen sich nicht in der Nähe von Bedienelementen für die Fensterverkleidung befinden. Verwenden Sie immer den Schnurhalter, um Schnüre außer Reichweite von Kleinkindern zu halten.
